Major ~~Part~~ B for July 1898

SUBJECT.

Scheme for opening out the congested parts of the Mysore City and improvement of the drainage.

| By Letter No | Letter No | Dated |
|---|---|---|
| 11318 / L 2072 | 771 | 3-4-93 |

From, The Presdt. Mysore Municipal Boards
Submits for information an extract of resolution IV from the Pro. of the Boards requesting that steps may be taken to better the Sanitation of the Mysore city.

2. 17829-30 / L. 2185 — 1.5.93.

To, The Presdt. The Sanity. Engr.
Requests the Sanity. Engr. to prepare and submit a Scheme for the complete drainage of the Mysore City.

GPB—10,000—23-8-15

# Memo: 1

The Municipal Board of Mysore in their resolution of 30 Sept 95 and the Pres of the Board in his letter of 12 Oct 1895 err in assuming that Rt. Rangaswami Iyengar's letter No. 390 of 28th Feb 1895 asked for a loan of 5 or 6 Lacs. No such application was made in the ~~that~~ last quoted letter nor could it well have been made -

2. A Drainage Scheme for the City had been under the Consideration of the Govt in the D.P.W. but it was eventually ~~abandoned~~ found financially not feasible & thereupon the Board were asked ~~to~~ first to do thoroughly all main drains & to provide for ~~the~~ Spreading out the town over a larger area. Vide ~~Prop~~ Enclosure to Prop. of 24 March '94 -

They were also told if necessary for this purpose they could raise a loan & repay it by Savings from an improved Revenue.

3. In No. 390 of 28 Feb 95, Rt Rangaswami Iyengar ~~recommended~~ submitted the following recommendations:

1st ~~Rs~~ Rs Govt. Grant in aid for Roads . . . . . 10,000

2d Remission of Educational Grants paid by Mun^s . . . 6,000

3d Duty on Kerosine oil . . . . 6,000

& 4th Tolls . . . . . 10,000

4. The idea apparently was that if the

Revenue could be thus increased, ~~the Rs 30,000 could be given for~~ to add to the existing allotment for Roads ~~could be increased~~ to use by Rs 10,000 and the balance ~~could be used~~ for improvement of Main drains and opening out the Crowded part of the City – Mr Rangaswami Ayengar did not say ~~clearly~~ whether ~~he made~~ this improvement of main drains and opening out of Crowded parts ~~should~~ be ~~done~~ undertaken as a big work ~~at once~~ and carried out by means of loan of 5 or 6 lacs to be paid for by the anticipated increase of Revenue or it ~~should~~ be carried out year after year out of this increase – At any rate no plan of the work was made nor has it yet been made. The Board has not any Officer to prepare a proper plan of the work much less has it one to carry it out ~~perfectly~~ and yet ~~they~~ it asks that ~~to~~ enable it to ~~Govt should lend~~ 1 lac of Rs ~~for~~ to carry ~~on~~ it out in part – This request cannot be complied with without thorough previous investigation of the ~~Project~~ work in all its details & as an entire one. After such investigation by a qualified Officer a Project ~~should~~ be drawn up in detail and sanctioned by Govt and it may then be carried out in a number of years – If ~~anything~~ before all this is done ~~then~~ we give a lac to the municipality to spend, it is sure to be spent more or less unprofitably –

5 Mr. Standish Lee is the only officer we can put upon the work - He is very busy with water works but he can be deputed to confer with the Board to ascertain ~~their~~ its wishes and the ~~further~~ details of the work it proposes and report generally upon it. Then the Govt. can form an opinion as to the further action Req^d.

A

6 As regards proposed improvements of Revenue enumerated in para 3 above I would give a grant in aid to Boards of Rs 5000/- & Sanction duty on Kerosine Oil. Tolls I would not Sanction and about Edl. grants I am doubtful, as we must avoid Creating an inconvenient precedent.

7 I would like Mr. Thumboo Chettiar to Consider the points marked A in above and thereafter a decision Can be arrived at & Comd to the Minds, as soon as possible.

21-7-96

Sd/

Sd/ Bd 21-7-96.

A. I am in favour of the proposal & an order may be sent to the Board. Mr. Thumboo Chettiar may be consulted if the Govt. so desire.

H. The Govt can give a grant of Rs 5000 for the proposed work to the Board
If the suggestion is made for Govt

4

Items

Before four copies of the draft below (bearing etc 10879/204-93 dated 8/3/98) had been despatched yesterday, President etc 4 S'y dated 7th Instant was handed over to me. I caused got the estimate therewith received, carefully compared by K. Moodelliar. It corresponds with that existing in the office in all respects As the total cost of the scheme is only 1,09,772 or 7483 less than that mentioned in the Presidents' communication of 18 August 1897 etc 93, a revised draft is submitted for approval in supersession of the one already forwarded & numbered and remaining to be issued

Submitted

5

Dated the 3rd Inst.

Please see para 2 of Letter No. 22.

With reference thereto, the President of the Municipality would for sanction a project for Rs 1,09,772 (Rupees Rs 117,255 as stated in his letter No. 93 dt 18th August 197) This was referred to the Chief Engineer. The latter recently drawn that the project was originally submitted by the Sanitary Engineer - Assistant Town Planner alone in March letter No. 370 dt 19/1/98, the President stated that included the work will be found for Rendle whose name was proposed to be acquired & walled down.

What was originally intended was an alternate drain.

Scheme for the whole
City (Vide Serial No
22 & previous cases.
- Pendence). But the
present Project is
a much smaller one
& relates only to the
abandonment of certain
congested parts of the
City & providing them
with Drains. The Board
ask for a loan of
the entire Cost of
abandonment & this work which
is reported to be
one of - magnitude
in the [illegible]

Please place it before
Council today

Called to secy.
Mrs.
16/3/07

X: When I took the file for re-arrangement I found this paper with at the bottom 3 9 99 L.B.Rao

the Presdt. was req^d
to report on
(1) The present financial condition of the Municipality.
(2) The resources existing for improving the income of the Municipality.
(3) Its capability to meet the expenditure required for removing condemned houses and opening out streets ~~to~~ and
(4) Any retrenchments the present expenditure can admit of.

2. Accordingly, the Presdt, with his letter above, submits statements of income and revised scale of establishments together with a copy of the report of the Sub-committee appointed for the consideration of the points raised in Govt. Order.

Points 1 & 2.

3. From the Statements received, it appears that the present annual revenue of the Municipality is Rs 1,22,170 and the Board anticipates an increase of Rs 37000 by development of its resources and a saving of Rs 24416 under expenditure, as per particulars given below:-

Increase of Revenue

(1). By revision of taxes - - - Rs 2000
(2) " introduction of tolls - - " 20,000
(3) " 50 of duty on toddy. 5000
(4) " 50 of Bye-laws in force in the city of Bangalore & regulate the levy of octroi. } 3000
(5). - 50 conservancy cess - - 7,000

as well as recommendations

Total increase
Rs 65,196

~~Rs~~

Deduct
increase under appendix - Rs 3780
Net increase Rs 61416

(3). Rs buildings original.
charitable and educational grants - - 16196
Total - - 28,196

Increase under ~~expenditure~~ Establishment

| | Existing | Proposed |
|---|---|---|
| 1. Collector. | nil | 1 at 100 = 1200 |
| 2. Sanitary Inspector. | 1 at Rs 80+15 = 1140 | 2 at 30+15 = 1080 |
| 3. Public Works Overseer. | nil. | 2 at 30+15 = 1080 |
| 4. Manager. | 1 at 70 = 840. | 1 at 50 = 600. |
| 5. Health-Officer. | nil. | 1 at 100+50 = 1800 |
| | 1980. | 5760 |

Increase - - Rs 3780.
Saving
Net Increase under expenditure - -
Rs 24416.

4. The loan of Rs 1,17,265 sanctioned in Proc. No. 12970-2 / L.F. 204-93 and 16525-6 / L.F. 204-93 Point 3.
dt 11th April and 18th June 1898 respectively was expended on opening out the congested parts of the City and the sum of Rs 39000 sanctioned in Proc. No. 3089-92 / L.F. 30-86 dt 21-8-00 will be utilized in demolishing houses condemned by the Health-Officer, which has been taken

Srl 13 in L.F. 204-93

taken on hand and on works still incomplete The Board resolved to raise a loan of 200000 Rs in the open market at 4½ per cent to be repaid in 20 years on account of improvements of the City The President considers that this loan is too small to meet the cost of necessary improvements but that an attempt will be made to complete them with the loan to be raised, with that sanctioned in Proc. No 3089-; L 938 viz Rs 39000 of 28. 8 1900, and the current revenues of the municipality. Under these circumstances the President requests that the Board may be authorized to raise the loan at 4½ per cent interest on the security of the municipal revenues with Govt guarantee for repayment in 20 years. This proposal as well as recommendations

in L. No 204.93

pertaining to items (3), (4) & 5 under reference and to item (3) under extraordinary reference to in the foregoing para a reference orders, as taxes were already received and bills entered under the Municipality.

Item 3 and Receipts. As regards the proposed introduction of duty on Metals, it is submitted that the rate of duty proposed to be levied is 2 per cent, while the maximum rate authorized in the late Chief Comm Pres c to 3362-73 dy 27 9-79 is only 1½ Rs per cent advalorem. The adoption of the little rate reduces the anticipated receipts from this base from Rs 5000 to 3750.

Item 4 Introduction of Bye Laws in force in Bangalore in regard to the levy of Octroi duties. A proposal for the introduction of these Bye-laws

(inserted at page 171 of the Rev manual)

The Precedent has been asked to apply for conference to the next Council Perhaps the Report should be submitted to the Executive Committee first. 17/6

Has been recently received and submitted for orders.

Item 5. Conservancy cess.

The introduction of Scavenging cess into the Bangalore City municipality was sanctioned

Pro cto 1763- / L-727-97 dy 2-8-97.

Spare copy putup for President's information & approval. 6/7

May rates similar to those in force in Bangalore be introduced to Mysore City also.

Putup.

Srl 2 in 202-93

28th July 1890. the Ellysore City municipality was relieved of Police charges amounting to Rs 24.764 and in lieu thereof grants in aid to certain schools in the town amounting to Rs 9180 were transferred. The grants in aid payable to the Wesleyan Mission High School and Pandit classes of the normal school were transferred to the State Funds Educational Budget in Proc no 915-8-60 Ed 231 dy 5/2/98 & in recon to the savings thereby effected being devoted to primary education.

Entered from the margin.

In the proforma Statement submitted by the President of Head office establishments, 2 D P. IV Overseers on Rs 30+15 are

84

entered in the proposed scale, omitting in the existing scale the Sub-Os Rs 50 + 15 p.m. provided for in the current years sanctioned Budget It is not clear whether the 2 Overseers referred to are required in addition to the existing Sub-Overseer or in lieu of them. To clear this doubt a separate Docket is submitted

In reply to the Office Communication, the Board now reports that the provision of Rs 17,151 made in the Municipality Budget of the Municipality under Charitable Grants and Education, both inclusive, is correct that in the Proposal Statement submitted by it

4

The increase expected under new taxes is Rs 35750

The saving under expenditure is Rs 24591

Total increase Rs 60341

The loan now due to Govt amounts to Rs 1,56000. There is provision of Rs 10,000 annually in the Budget towards the repayment of the above loan. Of the new loan of two Lakhs of rupees at 4½ per cent per annum is sanctioned, the annual interest will amount to Rs 9000, so that there will be a saving of Rs about Rs 5000 annually as per calculation made by the Board.

Jus.
16/3/08

35750
26151
61,901 ✓

What will the annual charge be for interest & sinking fund on the amount of the loan? Will the income be sufficient to pay for it?

26/4

A.S de

Rec'd 27/4

Please see printed copy of the Govt: Resgs: No 11541-50 & L.T. 262-96 of 14th April 1899 pathak.

Adopting 4 per cent as the rate of interest and 20 years as the period for repayment for every rupee lent, the annual payment req'd during 20 years will be Rs .07358

Therefore for 2 lacs lent, the annual payment req'd will be Rs 7358 × 2 = Rs 14,716.

If the rate of interest be as per proceedings, Rs 13-10 4½ per cent the amount payable every year comes to Rs 15376, which can be met from the sources pointed out by the precedent amounting to Rs 60,000 in round numbers.

Submitted for orders

29/4/01

1 01

18

From the calculation made, one can safely say that the W.C. & repay not only enough interest duly in 20 or 30 years — provided of course that unforeseen expenditure or loss of income would very seriously cripple its resources. But such cases need not be assumed and I think Govt may safely guarantee this loan. But I have a doubt whether 4½ P.C. is not too low. Even 5 P.C. (if necessary) may I think be guaranteed.

To the 3rd Councillor

were built during
this time. Please
obtain them informally
as soon as possible
and place them
before me.

We will find
unfortunately that the houses
which are ordered to
be removed are generally
encumbered with
debts charged on them
& that therefore the
whole compensation
would not be available
for the erection of the
new houses. The in-
convenience to
traders & others would
still be how this in-
convenience might be
removed? Is it
possible to transfer
the charge from the
old to the new buildings
would the effect be
stimulated by offering
the land gratis? The
whole subject must
be thoroughly discussed
and a definite plan
of action suggested for
adoption. Why
should not blocks of
houses say about 100 in
each of a standard design
and of cheap construction
be built and offered to
[illegible]

The President having been requested to furnish the information called for by the Dewan on 24-9-01. he submits his replies vide his letter No 357 dated 16/11/01. The Dewan's queries and the replies thereto are given below in juxtaposition.

Dewans queries

The exact purpose for which this loan will be applied have not been stated This is important & the information must be obtained

With that information the papers will be circulated to Councillors for favor of their opinions

Replies

An estimate for Rs 2.62,91 was submitted with Pres letter No 711 of 26-4-01 (Sl 83) purposes noted below.

| | | Rs |
|---|---|---|
| (1) | Compensation for houses | 1.88 449 |
| (2) | Contingencies including cost of materials | 38 569 |
| (3) | Formation of roads | 10 893 |
| (4) | Dismantling houses condemned by Health officer | 20.000 |
| (5) | Town esclusions. | 5000 |
| | Total Rs | 2,62.91 |

A sum of Rs 39000 was been sanctioned by (Sl 93) vide Pro No 3039-92 of 28 8 0 L.F 3086 the cost of the estimate will reduced to Rs 2.23.911. In the present circumstances, President considers that of 200000 Rs would be enough to complete all

YPS

To what esctent this proposal has been carried out? If not why not? what is the cause of delay? How ~~much money was paid in compensation since 15 September 1900 & how many houses were pulled down,~~

~~How many new houses were built during this~~

~~time~~

How much money was paid in compensation since 15 September 1900 & how many houses were pulled down? How many new houses were built during

May the papers be circulated to Councillors after submission to the III Councillor & the Dewan

The house sites in each of the 4 esctensions have already been marked out. The Hoteyars of Errangere have been persuaded to build houses in the Jalapuri esctension and the 1st Councillor has seen more than 100 houses in course of esection there. Some of the Pundarams whose houses were demolished under the Plague rules have begun to build new houses for themselves in the Edega esctension and the inhabitants of Pattanadu ganegakere are also being persuaded to follow their example.

In the Chetnahalli esctension 8 Sanetary houses were build as ordered by the Plague Com and these houses will be taken up by the people as soon as the estimate for the Vannelas road is sanctioned.

The amount of compensation paid since the 15 September 1900 is Rs 34 571 The total no of houses dismantled is 250 and this

this time

Please obtain these informations and place them before me.

The Vice President told me that the houses which are ordered to be removed are generally encumbered with debts charged on them and that therefore the whole compensation amount would not be available for the building of the ~~houses~~ new houses. The inconvenience brought to notice is perhaps real. Ask how this inconvenience may be removed. Is it not possible to transfer the charge from the old to the new house?

Would the effort be stimulated by offering the land gratis? Why should not blocks of houses, say about 100 in each of a standard design and of cheap construction be built

3½ of new houses prop.

elly ~~this~~ ~~could~~ be done ~~exchange~~ ~~con~~ to the III

Such transfer be possible only with consent of creditors. in these times of and uncertainty, they rather prefer to at least a portion of investment at once wait for its full in the uncertain fut.

Grant of land gratis would in some c stimulate to erect hous in the Extensions; only ~~poor~~ of the people as are provided with the required means

in ordinary.

ed offered to different

municipalities?

some extent On the other hand, poor people would be averse to go to the Extensions though the lands be given gratis, because they are the working classes, and would therefore prefer living centres in the City to the new Extensions.

In order to overcome all these difficulties, the President ~~I~~ suggests that blocks of cheap houses of different designs may be constructed in all the Extensions for different classes of people, who may then be persuaded to take them up in lieu of the compensation for their houses to be removed, and that the encumbrances on the latter, if any, may be transferred to the new houses

Submitted

To the 3rd Councillor.

The file will be submitted to the Diwan on return.

The building of blocks of houses in as sanitary a manner as possible would be an excellent project, but I fear the building by Municipality would in the whole be more costly & in as ~~a~~ thorough manner by the private parties. Govt should be inclined to carry out more economy than it is wise to recommend.

Mysore P. W. Department
Central Office Bangalore
Dated 26. January 1894.

(11/2)

To

The Dewan of Mysore.

In March 190, the Sanitary Engineer submitted a detailed report on the probable cost of a Scheme for the drainage of the city of Mysore, but it was not sent on to you at the time, owing apparently to the prohibitive cost of the Scheme, and the difficulty of finding funds. He now represents that until orders are passed on the above report, the Scheme for the drainage of the Mysore city, ordered in Govt: Proceedings No 1789-90 266-92 dated 1st May 1893, issued from the General Department, and in Officiating Dewan's Memo: of 5th October 1893, (herewith submitted) cannot be attended to, as it may be a waste of time if in the end Government is not prepared to incur the necessary expenditure.

II. I, therefore now submit the Sanitary Engineer's report of 1890, for your instructions

instructions as to what steps should be taken in the matter. It will be seen from that report that a Complete system of drainage will Cost about 28½ lacs, and a partial one 8½ lacs, and both these sums are beyond the means of the municipality. I Cannot see how any effective system of drainage Can be carried out for less than 8½ lacs, It is evidently no use working out any Scheme in detail until it is known that funds will be available

Bangalore.
4. 12-98 ⅔.

Sd. W. Neil Campbell Lt. Col.
Secretary to the Govt of Mysore. D

---

Copy of Dewans orders: ——

(1) It is not possible for the Govt. to give 28½ lacs for the entire drainage, or even 8½ lacs for a partial drainage.

(2) The municipality must first do thoroughly all main drains, and provide for spreading out the town. If they Cannot find the money for this from current Revenue, they should raise a loan to be extinguished in

a

a long No of years. This in my opinion, Can be Easily arranged if they will im- prove their Sources of Revenue. I know They have a most Laudable desire for drainage and other Sanitary improvements, but the only thing they will not do is to raise money for their wants. Several Sources of Revenue Can readily and justly be improved The town people may not like such improvement, but the duty of the Munici- cipality is clear.

So long as they don't do this duty, it is not possible to carry out such necessary improvements, as drainage. The Govt. have made to the municipality a present of the Water Supply and They will improve it, as now proposed, without charging anything to the municipality, but the maintenance must devolve upon them in a year or so, and sooner the municipality prepare themselves for this and other most important items of Expenditure, the better it will be for the public good.

III. A municipality having so large an element of popular representation in its Constitution, must be above expecting the Govt: to pay for its requirements. The Govt: have already been very liberal towards the Mysore City Municipality in order to remedy the neglect of past years, but it cannot reasonably be expected to do this for ever——

From

A. Rangasami Iyengar Esqrs
Deputy Commissioner and
President, Municipal Board,
Mysore.

To

The Chief Secretary to the Dewan
of Mysore.

Sir,

I have the honor to acknowledge Government Proceedings no 16014—15 / L. F. 203-93, dated 24th March last, forwarding copy of memo by the Chief Engineer, and the Dewan's order thereon, for my remarks and suggestions. These papers were discussed by the Municipal Board, on the 31st March 1894, and a sub-committee was formed to study the question of drainage of the town, and to consider how the municipal income may be improved to meet its cost. Subsequently, Government Proceedings no 21842 / L.F. 264-93 dated 15th June 1894, were received, calling

Calling for a detailed report on the points noted in the margin; and these Proceedings also were referred to the same Sub-Committee. Its report dated 30th July was adopted by the Board at a special meeting held on the 1st August 1894, and is herewith submitted, together with the resolutions of the Board, for the favorable Consideration of the government.

※
(1) The existing sources of
(2) How far they can be
(3) What new taxes can introduced without hardship to the people
(4) What is the least wanted annually for n ordinary requiremen the Municipality.
(5) The sum the P desires the contri

2. The aggregate revenue realized by the Municipality during the last 3 years amounted in round numbers to Rupees 99,000, 98,000, and 108,000 respectively, leaving out a sum of Rs 7000 which was received as a refund from Govern-ment, in 1893-94, and which is a special item not likely to recur; the annual revenue may be put down at Rupees 100,000 made up as follows:—

| | |
|---|---|
| 1. Octroi — — — — — — — — | Rs 59,000. |
| 2. Tax on houses — — — — — — | " 12,000. |
| 3. Mohalarfa — — — — — — — — | " 6,500. |
| 4. Rents from markets — — — — | " 8,000. |
| 5. Other miscellaneous receipts | " 7,000. |
| 6. Receipts from liquor licenses | " 6,000. |
| 7. Tax on carts and animals — | " 1,500. |

3. It will thus be found that octroi contri-
-butes about $\frac{3}{5}^{ths}$ of the total income. Though
with more careful management the duty
on tobacco may be made to yield a slightly
increased revenue, the receipts from
octroi cannot be expected to amount to
much more than 60,000 Rs unless other
articles are made dutiable.

4. The next item is the tax on houses
from which a sum of Rs 12,000 only is
derived at present. In 1891-92, the demand
under this head, amounted to Rs 17,420
although the number of taxable houses was
only 11,600; but in 1892-93 and 1893-94,
the demand went down to Rupees 14,535
and Rs 14,284 notwithstanding that the
number of taxable houses were about

709

700 more than in 1891-92. In the same way, there has been a fall in the shop tax as computed from 1891-92 (vide margin). Though the balance of previous years was considerable, the actual collections have been somewhat less than the demand for the year as will be seen from the figures given in the margin.

| ※ | arrears with demand | collection. |
|---|---|---|
| 1891-92 | 47,373 | 26,928. |
| 1892-93 | 42,191 | 19,734. |
| 1893-94 | 43,884 | 21,371. |

This is attributable to the inefficiency of the collection staff, and lack of supervision on the part of the superior officers. At the same time, I cannot help observing that the disinclination of the people to pay their just dues is also partly responsible for this unsatisfactory state. Seeing that the condition in life of the inhabitants of the Mysore Town is much higher than that of those of the Taluk Kasbas and that the trade also must be relatively larger, one would expect that the rate of taxation on houses and shops would be higher in the Mysore city, than in the Taluk municipalities and that a larger sum would be contributed to the municipal exchequer in

× 1891-92 — No. of shops — 1452 — Amount of tax Rs 9,402
1892-93 — — 1406 — Rs 9,211.
1893-94 — — 1405 — Rs 7 5

be seen from appended statement in proportion. But the case is just the reverse, and there are good many instances in which houses in Mysore have been undervalued. Notwithstanding this, I am afraid that, in the present state of feeling in this City, a revision will not improve the receipts by more than two or three thousand Sanat rupees at the most.

5. The other items are unimportant. The tax on carts and animals may show slight improvement if worked strictly, and more carefully supervised. We cannot expect more from the licenses on arrack shops &c and the rents from markets have improved so much, under recent careful management, that no fresh improvement can be hoped for. The miscellaneous receipts are uncertain, and cannot be relied upon, for any permanent increase.

6. It will thus be seen that with the existing sources of revenue, we cannot count upon a larger increase than three or four thousand rupees on the whole.

7. The expenditure for the last

7 3 years amounted to Rs 73,000, 99,000, and 101,000 respectively in round numbers. The major heads of this expenditure are given in the margin. The increase has chiefly occurred under Head office, Conservancy, Public Works, and charitable grants.

8. The 1st item of increase is due to the appointment of a paid Vice President and to some unavoidable additions to the office. The expenditure under conservancy shows an excess of about 2000 Rs due to the strengthening of the conservancy establishment in order to provide additional sweepers to the Western Extension. The net additional charge will not exceed Rs 3000 per annum in future.

| | 1891-92 | 1892-93 | 1893-94. |
|---|---|---|---|
| | Rs | Rs | Rs |
| 1. Head office | 2,800 | 3,700 | 7,000 |
| 2. Collections | " 8,400 | " 9,700 | " 8,600 |
| 3. Conservancy | " 21,000 | " 21,000 | " 23,000 |
| 4. Lighting | " 4,800 | " 6,200 | " 5,800 |
| 5. Public Works | " 17,100 | " 21,800 | " 28,900 |
| 6. Charitable grants | " 466 | " 3600 | " 4,400 |
| 7. Execution | " 9,100 | " 10,200 | " 9,300. |

9. The expenditure under Public

Public Works has advanced from Rupees 17,000 in 1891-92 to 22,000 in 1892-93 and 29,000 in 1893-94. Comparing the details of 1891-92 with those of 1893-94, the increase has occurred under the following heads:—

1. Additional charge entailed by the entertainment of an Executive Engineer — — — Rs. 2,760.
2. Excess expenditure under roads original and repairs — Rs. 5,500.
3. Drains original and repairs — Rs. 4,000
4. Compensation — — — — — Rs. 3,000

10. On the other hand there has been some small savings under other items bringing down the net increase to Rs. 12,000. None of these charges are capable of reduction in the future. The roads are now far from satisfactory and to maintain in good order these and other roads which may hereafter be transferred to to the Municipality a larger expenditure will certainly be required. A memo on the subject was already submitted to the Dewan and a copy of it is enclosed for reference. It will be seen from it that the expenditure

on

on roads alone is estimated to amount to nearly 30,000 Rs. So that the total expenditure under Public Works cannot be less than Rs. 40,000 per annum.

11. The expenditure under charitable grants amounting to about Rs. 4,000 as compared with that of 1891-92 viz; Rs. 500 was due to the establishment of dispensaries at Kaveri and old Agrahar and a proper debit of the charges on account of the maternity.

12. The future normal expenditure of the municipality under all heads may thus be estimated at Rs. 115,000, composed of the following items:—

| | | |
|---|---|---|
| (1) | Head office | Rs. 7,000 |
| (2) | Collection Branch | Rs. 8,500 |
| (3) | Conservancy | Rs. 24,000 |
| (4) | Lighting | Rs. 6,000 |
| (5) | Public Works | Rs. 40,000 |
| (6) | Charitable grants | Rs. 4,500 |
| (7)* | Miscellaneous | Rs. 8,000 |
| (8) | Grant-in-aid to education | Rs. 10,000 |
| (9) | Instalment towards loan given for Duffe-rin fountain | Rs. 2,000 |
| (10) | Ditto for Devaraj market | Rs. 5,000 |
| | | Rs. 115,000 |

* Miscellaneous under which will have unusual contents

| | | |
|---|---|---|
| i. | Refund of excess collection | Rs. 100 |
| ii. | Cattle pounds | Rs. 600 |
| iii. | Rewards to dogs and snakes killers | Rs. 150 |
| iv. | Pensions | Rs. 450 |
| v. | Fairs and festivals | Rs. 2,300 |
| vi. | Town hall establishment charges | Rs. 400 |
| vii. | People's park establishment | Rs. 800 |
| viii. | Other charges pertaining to Town hall | Rs. 500 |
| ix | Ditto pertaining to People's Park | Rs. 500 |
| x | Water maintenance establishment | Rs. 1,400 |
| xi | Other charges, viz., repairs of taps &c. | Rs. 600 |
| xii | Allowance for winding clock | Rs. 200 |
| | | Rs. 8000 |

13. It will be observed that the expenditure just balances the income if the additional provision on account of the roads be omitted and that a substantial grant from Government of not less than Rs 10,000 is required if the Municipality be expected to bring the roads into a more efficient condition.

14. It is impossible that the Municipality can, under these circumstances, hope to do anything for the permanent improvement of the drainage of the town which is very defective and in some parts hopelessly bad. When the town is fully supplied with pipe water and the inhabitants make a liberal use of the same, as observed by the Dewan, something must be done, without delay, at least to put all the main drains in good order and to open up the crowded parts of the Town.

15. We have no means of estimating the probable cost of these works but it may be hoped that a perceptible improvement may be effected in this direction with 5 or 6 lakhs of Rupees.

10

19

16. I beg therefore to commend for the favorable consideration of Government the proposals of the Board for augmenting the Municipal revenue. In the case of the Taluk Municipalities, the Government have been pleased to forego their share of the Mohatarfa, recovering only a very small share on account of educational grant-in-aid towards the cost of primary education. Charges on account of Lower Secondary and higher education in all parts of the Province are borne by Government. Under these circumstances, the recommendation of the Special Committee for the remission of the Education grants so far as they apply to those two Standards is deserving of consideration.

17. Duty on kerosine oil is, I believe, collected in some municipalities outside the Province and the Board recommended its introduction in February 1893. Its collection is easy and the people are not likely to raise any objection to its introduction.

It is not collected in the Coimbatore District. I do not think it advisable to levy it in any part of the Presidency.

Lolls

18. Tolls are collected in all Municipalities in the Madras Presidency and may be properly introduced in Mysore. It is true that a small contribution is paid to the municipality on account of the Provincial roads which lie in Municipal limits. But this need be no bar to the introduction of the Tolls.

19. If these proposals are sanctioned by Government, the additional income that may be expected may be estimated as follows:— (1) Remission on account of educational grants } Rs. 6,000
(2) Duty on Kerosine oil — Rs. 6,000
(3) Tolls ——— Rs. 10,000,
or 2 2,000 Rupees. The surplus available for expenditure on the drainage would, however, amount only to about eleven or twelve thousand rupees unless the Government be pleased to make a special annual grant on account of the roads.

20. The Government has done a great deal for Mysore and the Board are fully aware that they cannot in reason expect it to do much more. But under the peculiar circumstances

1½

of this city, they have no alternative but to come to the Government for help and hope that the present proposals will not be considered extravagant or unreasonable.

I have the honor to be,
Sir,
Your most obedient servant
H Thanjavadaya Iyer
for Deputy Commissioner
and President,
Municipal Board, Mysore

Compd.

22 Proceedings 3-12-94

From.

The Sub Committee of Municipal Commissioners
appointed 31st March 1894.

To

A Rangasamy Iyengar, Esquire B.A B.L
President

Sir,

With reference to the resolution of the Board of Municipal Commissioners, dated 31st March, 1894, appointing us a Sub-Committee to investigate the methods by which the revenue may be improved, with a view to defraying the cost of the proposed drainage scheme, we have the honor to submit the following report.

I Increased Expenditure

Before a large scheme of drainage reform can be taken in hand, several additional items of expenditure have to be provided for.

New roads (1) In the first place, the cost of maintaining some new roads recently handed over by the Special Improvements Division, is to be borne by the Municipality; and it is probable that before long some additional

roads will be handed over, the maintenance of which will have to be provided for, by the municipality. We estimate the Expenditure thus to be incurred at Rupees 6000 per annum.

Old roads (2) Secondly, we are of opinion that the amount Spent annually on the other roads in the municipality is insufficient to maintain them in a State of proper repair, and that for this purpose an additional Sum of Rupees 10,000 per annum must be provided for

Note - In Connection with the subject of the maintenance of roads, we are of opinion that Mysore being the Seat of Government, has been provided with more roads than are needed for the actual requirements, and that an annual Government Grant of about 10,000 Rupees is required to supplement municipal funds.

Water Supply (3) Thirdly, from the order of the Government of Mysore dated 24th March, 1894, it appears that the municipality is to be charged in the immediate future with the Cost of the

maintenance of the water supply. We are of opinion that this will involve an immediate increase of Expenditure of at least Rs: 2000 per annum.

When the new water Scheme is Carried out, it is probable that the Cost of maintenance will be largely increased; this, we think Can be met by imposing a Special water tax to be levied when the proper time Comes. Meanwhile, as we have no means of estimating the probable cost, we have not made any Suggestions as to the rate, or method of levying the tax.

The total additional Expenditure which we contemplate, apart from the drainage Scheme, is thus- Rupees 18,000

II Proposals for increase of Revenue.

Grant-in-aid (1) We think that the grants-in-aid of Educational Institutions, within the Municipality, should be paid from Provincial Funds, this would effect a Saving to the Municipality of Rupees 96,96 per annum.

Kerosine oil (2) We are of opinion that a tax Should be levied on Kerosene oil at the rate of 4 annas per Case, at 1 — 1½ 1½

Estimate the income from this source at Rupees 6000/- per annum.

House Valuation (3) We are of opinion that the House Tax appears to be unequally levied - Many houses being taxed far below their proper Value. and that a Careful revision of the Valuation of the houses, without alteration of the present Scale of Charges, would result in a Considerable increase to the revenue derived from this source. We suggest that a Sub-Committee, Consisting of four Commissioners and the Vice President, should be appointed to assess the houses at their proper Value. We estimate the increase of revenue from this source at Rupees 3000.

Tolls (4) We think that Tolls should be established on all roads leading out side the municipal limits, and that taxes should be levied on all Vehicles entering the town at the following rates.

| | | | |
|---|---|---|---|
| On every 4 wheeled Carriage or Shrings | | | Rs. as. P |
| do - 2 | do. — | do ——— | " . 8 - " |
| do | | | " . 4 - " |
| do loaded Cart drawn by a | | | |
| | | Single bullock | " - 2 - " |
| do. | do - | a pair of bullocks | " - 4 - " |
| do - | Cart laden with fuel — | | " - 2 - " |

Cart laden with brick, Earth Stone Sand &c Rs. as. P. n. 2 — a

Do. — Do. not laden. Half the above rates

all Vehicles belonging to persons who pay wheel tax, within the municipality, to be exempted.

We also think that it would be advisable to let out the levying of Toll-dues on contract. We estimate the revenue from this source at Rupees 10,000 per annum.

The total estimated increase of Income from these Sources is Rupees 28,696.

## III Drainage Scheme

To be effective, a complete drainage Scheme must be first devised, and portions Carried out from time to time, as funds are available. We have no information as to what will be the lowest estimate of such a Scheme, and what portions of it require to be Carried out at once. We recommend that Mr Lee, be requested to prepare such a Scheme, and that funds for its preparation be placed at his disposal. It is not possible to say what amount will be required but it cannot under any Circumstances be less than 7 or 8 lacs. We have appended

a balance sheet of estimated income, and Expenditure, which shows a balance of Rupee 10,696 available for the Drainage Scheme.'

If the Government be pleased to make a special grant on account of Roads as proposed in para 2, the surplus will amount roughly to 2,00 00 Rupees per annum. With increasing demands under lighting, Conservancy, and water Supply, we cannot Calculate upon a larger surplus being available for some years to come.

It has now to be considered on what conditions the Government will be able to grant a loan to the municipality. It will not be right to have the loan as a permanent charge on the municipality bearing interest. It will have to be discharged within a reasonable time, Say 20 to 30 years or at the most 40 years If the Government should in consideration of the Special needs of Mysore, be pleased to charge no interest, and to sanction

a loan of 4 to 6 or 8 lacs we shall be able to Execute a Considerable portion of the scheme If, on the other hand, the Government should finds it necessary to Charge interest, only a much smaller sum can be borrowed in proportion to rate of interest Charged, and the scheme cannot be expected to be Carried out to any Satisfactory Extent.

Mysore 3rd April 1894

Memorandum

I beg to submit for your favorable consideration, the memorandum prepared by the Executive Engineer, Mysore Municipality, regarding the funds required for the maintenance of the Municipal Roads in proper order

In obedience to your Verbal orders on the Subject, I held more than one discussion with the Executive Engineer, on the present Condition of the roads, and the Steps necessary to be taken for repairing them in a Satisfactory manner - The memorandum Contains the Conclusions which we arrived at, after mature deliberation, and I may state that Mr Kamu, also generally Concurs in the views Expressed therein.

| | Miles |
|---|---|
| 1st class | 23 |
| 2nd Clap | 14 |
| 3rd class | 8 |
| 4th Clap | 18 |
| 5th Clap | 12 |

The Municipality Contains about 75 miles of roads, divided as per margin - The Classification has been made according to the amount of traffic, the wear and tear and the Cost required to Keep the roads in good order - The roads have been marked

in the annexed plan according to this Classification and you will be able to judge of its correctness by a glance, and to decide what modifications are necessary

It is proposed to allot Rupees 700, for the 1st, 500 for the 2d, 250 for the 3d, 100 for the 4th, and 50 for the 5th Class, per annum. If the average Cost of the roads in Poona be compared, the rates proposed will not be considered Excessive There is not sufficient information as to the Total. Length of the roads in Madras, and the principles of their Classifications, and the average Cost of repairs of the different roads..

The Total amount required is estimated at about 30,000 Rupees, while the municipality is not at present able to spare more than 15,000 Rupees for the purpose. Unless the Government is kindly pleased to contribute liberally towards the Cost, the roads will have to be neglected and must gradually deteriorate more and more. Poona has too much of roads

in proportion to its revenue, as compared with other municipalities, and deserves some consideration. The more especially, as it is the Capital of the Province, and the residence of the Maharajah for a greater part of the year.

(1)

# Memorandum

All the roads in the Town have been divided into 5 classes distinguished as follows:-

1st class — Roads subject to a large amount of loaded traffic, as well as a large amount of Springed vehicle traffic.

2nd " class - Roads subject to a large amount of loaded traffic, and to occasional springed vehicle traffic and vice versa.

3rd " Class - Roads on which the loaded traffic is light, and springed vehicles scarcely or never go.

4th " class - All other roads and streets above 12 feet in width.

5th " class - All streets below 12' in width and lanes

2. The 1st " class roads will require a recoat of metal once in 4 years, 4" in thickness of hard quartz metal being used each time. By recoating 2 furlongs in each mile successively every year, the above requirement can always be attended to; this will cost about Rupees 500, and allowing Rupee 200/ for the petty repairs in other parts of the mile the 1st " class roads will require Rupees 700 a mile per annum for repairs. The width of metalling will be only 6 yards, except in the case of the Fort North gate roads for which it will be 9 yards, and the Chamaraj, Prince Victor's and Sayaji Rao roads,

for

for which it will be 10 yards. The mileage rates for these roads will be Rupees 1000, and Rs. 1200 respectively.

3. The traffic on 2d. class roads being lighter it will do if a recoat were put once in 6 years, and 5 yards width of metalling will be enough - calculated on these data the mileage rates for second class roads comes to Rupees 500 per annum.

4. For 3rd. class roads, only the centre 4 yards in width need be metalled; the material obtainable from Purmya kala Excavations being enough for these, and providing for a thickness of 4" for every recoat, and a recoat once in 6 years, it will cost Rupees 250 per mile per annum to keep up these roads.

5. The 4th and 5th class roads need not be metalled; a light coat of gravel for the more important of the 4th class roads may be put, and only the drainage and the shape of the road attended to in the case of all others. Rupees 100 and Rupees 50 per mile per annum will be enough for the 4th and 5th class roads respectively.

6. No provision has of course been made in this Statement for the roads now under construction by the Public Works Department in Chamarajpura, Kukkehally and Dodda Kolagere; the funds required for their repairs can be determined only after they come under the charge of the Municipality.

7. The total length of 1st, 2d and 3rd class roads in the town is 45 miles, and the annual allotment required for their up keep Rupees 27000/-. The lengths of the 4th and 5th class roads put together will be roughly

roughly 30 miles, and the annual allotment required for their repairs Rupees 3000?; and the total annual allotment for all the roads together Rupees 29140 or in round numbers 30000. The present allotment for road repairs is only Rupees 15000 or just half of what is actually necessary, and the present condition of the roads of which frequent complaints are made requires no further explanation. The average mileage rate for the 1st 2d and 3d class roads put together is only Rupees 600, and considering the importance of the town as the Capital of the Province, and the amount of dirt traffic on the roads, this rate can hardly be considered high. It is not more than the rate of Expenditure in the Municipalities of other large towns in India. In the Poona Municipality, according to the Administration Report for 1872-73 the total Expenditure during the year on road repairs was Rupees 24741-12-11 of which Rupees 1810 was for the improvement of lanes which are 18 miles in length, and Rupees 22931 for the repairs of the roads; the latter are 36 miles in length and the rate of Expenditure is Rupees 637 per mile. The total income of the Poona Municipality was during the year Rupees 305882, and the amount spent on road repairs was of course only 1/12th of the income but as the length of roads in Mysore is actually greater than in Poona, though the income of the former Municipality is scarcely half of that of the latter

latter, the same proportion of Expenditure to income can assuredly not be enough, unless the number and length of the important roads were also diminished proportionately. A statement of the income and Expenditure on roads in some other important Municipalities is subjoined herewith and may be of interest in this connection.

| Name of Municipality | Total income. | | Expenditure on road re-pairs. | |
|---|---|---|---|---|
| | Estimate for 1892-93 | Actuals for 1892-93 | Estimate for 1892-93 | Actuals 1892-93 |

M. Venkatasubbaiya

MVS President.

Proceedings of a special meeting of the municipal commissioners for the city of Mysore held in the Town Hall at 8 a.m. on monday the 30th september 95.

I The question of requesting the Government for a loan of one lac of rupees for opening out lanes in the thickly populated localities in the city of Mysore, was considered.

As the matter has already been discussed and the Government have, in letter no 390 of the 28th February 1895, been asked to lend 5 or 6 lacs of rupees, resolved that a reminder be sent for favor of early reply thereto; pressing on the attention of Government the urgent necessity of widening the narrow lanes which at present have no means of getting fresh air.

To.

The President
Municipal Board
Mysore.

Sir,

We the members of the sub-committee appointed by the Board to report upon the ways and means for the repayment of the loan asked for, from the Government for widening the narrow lanes and opening them where required, beg to inform you that there are several sources which may help us to repay the loan.

The sources which enable us to repay the loan are the following:—

| | |
|---|---|
| 1 Budget allotment for compensation to open the congested parts of the town. | 7000. |
| 2 Allotment for formation of new roads. | 2000 |
| 2a) Amount that becomes available after 3 years when Deva Raj market debts paid off. | 5000 |

| | |
|---|---|
| 3 Amount which becomes available after 2 years when the Dufferin Fountain debt is discharged. | 2000. |
| 4. Amount which becomes available if the revision of House tax is sanctioned by the Government. | 3000. |
| 5. Amount available if a small tax on carosine oil is sanctioned by the Government. | 6000. |
| 6. Amount which becomes available if toll gate taxes on carts are sanctioned. | 10000. |
| Rs. | 35000 |

Even if the Government do not sanction the last 3 items, we will be in a position to pay 16000/- Rs a year, out of Budget allotments towards the repayment of the loan, by devoting yearly the allotments under the heads of compensation, roads original, and the sum of 5000 and 2000 Rs to be set-free at the end of 3 and 2 years each respectively after the markets and Dufferin Fountain debts are discharged.

The Government would lay the city under great obligation, if they make a loan of a lac of rupees without interest. This

this amount is not wanted once for all. This may be laid to as the work of opening the lanes &c progresses in instalments of rupees 10,000 or so at a time.

We have the honor to remain

Sir,

your most obedient servants

President of the

Mysore City Municipality

Read: —

Letter of 31st January 1896, No. 350 from the President Mysore City Municipality.

(Here print the letter and its enclosures in extenso)

---

Order thereon No. —
dt 193 94

Bangalore February 1896

The work of widening the narrow lanes in the Municipality of Mysore will be treated as one falling under Part I of the Sanitary Works Budget and carried out in the Sanitary Department The necessary sanction to the loan applied for in the above will accordingly be conveyed in the PW D on condition of the Municipality undertaking to repay the moiety of the loan with interest at 4 per Cent. per annum, the other moiety being treated as a grant-in-aid the Municipality.

(2) To enable the Municipal

Board to repay the loan, it is proposed to tax Kerosine oil and to introduce tolls. The Government are not prepared to sanction the introduction of tolls, but they will not object to the Municipality taxing Kerosine oil, from which Rs 6000 is expected every year. The President is however requested to state the rate, at which he proposes to charge each tin of Kerosine oil.

Mysore City Municipal
57 President's Office dated the
14th July 1896.

To

The Secretary to the
Government of Mysore
Revenue and General Departments

Sir,

In continuation of my letter No 350
dated the 31st January 1896, pointing out
the means of repayment of the loan
of one lac of rupees required for widen-
ing the narrow lanes in the City of
Mysore, I beg to request that as the
opening of the crowded locality is much
urged by the Commissioners, the question
of the loan may be kindly considered
early.

I have the honor to be

Sir,

Your most obedient servant

President of the
Mysore City Municipality

[illegible]

Read correspondence relating with letter, No 22 of the 14th August, 1896 from the President of the Mayoral City Council, soliciting early sanction to the loan of a sum not exceeding Rupees 4 lakhs for the purpose of opening out the crowded parts of the city

1850-54

Order. 204-93 5/8/96

RL 269

A drainage scheme for the city of Mysore had for some time been under the consideration of the Govt in the P.W.D. Mr Meares the Sanitary Engineer submitted a report stating that a complete system of drainage would cost about 28½ lacs, and a partial one 8½ lacs. The matter was for a time shelved owing to the pressure

5/8/96

Spare 4
4-8-96

Mr. S. Copy sent to President, Imperial.
ans 7/8/96.

cost of the Scheme and
to the difficulty of
finding funds for
carrying it out. The
question was reopened
by the Hon'ble Secretary
in Dec'93 & the Council
thereupon passed an
order which was
forwarded to the President
of the City Municipality
for his remarks and
suggestions vide Govt
No. 1601A-5 dt 24.2
Col 12
LR 204-93
March 94. It was
decided provisionally
that it was not possible
for Govt to give
28½ lacs for the entire
drainage or 8½ lacs for
a partial drainage - &
the Municipality must
first
thoroughly all main
drains & provide
for spreading out the
town over a long area
and that if they could
not find money for this

60

from current revenue
Mtg could raise a loan
and repay it by savings
from an improved system.
In April 194 the President
tabled a Memorandum
regarding the additional
funds required for
the proper maintenance
of Municipal roads in
the city. The Sub Committee
to which these questions
were referred by the
Board made a report
which was ~~adopted~~ forwarded
for the favourable con
sideration of Govt
with the then President
Mr Ranganadan's
letter No 393 dt 28th
Feby 195- ~~[illegible]~~
~~[illegible]~~
~~[illegible]~~
~~[illegible]~~
in which the
following recommenda
-tions were made:

1st A Govt grant in aid } 10,000
for Roads }

2nd Remission of the } 6 "
-cational Grants }

3d Levy of Duties } 6,000
Kerosine Oil }

4th Levy of tolls - 10,000

~~The Levy of Duties~~ by the Revenue could be thus increased. The idea adverted to was to add Rs 10,000 to the existing allotment for roads and to utilize the balance for the improvement of main drains and the opening out of the congested parts of the City - The Municipal Board, in their Resolution of 30th Septr 95, and the President, in his letter of 2nd October 95, ~~and~~ in opposing that Mr Ranganadhamiengar's letter of 28th Septr 95 asked for a loan of 5 or 6 lacs. No such application was made in the last quoted letter nor could it well have been made. The ways and means for the improvements suggested in the above order above adverted to & for the better main-

2

-lement of roads as
stated in Mr Ranga
-swamiengar's Memo
of 3d April 94 wherein
the questions relating
engaging the attention
of the Board of
Mr Rangaswamiengar.
It was mutually agreed that
a perceptible improve
-ment ought be
effected at a probable
cost of 50 or 60 lacs of
Rupees in the direction
of Making the main
Roads in order and of
opening out the crowded
parts of the City - Mr
Rangaswamiengar is
not able for a loan
of this amount nor
did he suggest that
the said improvement
should be undertaken
as a Govt work and
carried out by means
of a loan to be repaid
from the anticipated
increase of Revenue
or should be carried
out year after year -

out of that income. At
any rate, Govt find
that no plan of the
work was made either
then or at any time
subsequently. The present application for
~~a loan~~ a loan of a
lac of Rupees cannot
under these circum-
stances be complied
with without a thorough
previous investigation
of the work in all its
details and as an
entire one. After such
investigation by a qualified
officer, a Project could
be drawn up in detail &
and carried out in a
number of years after
receiving the ~~Govt~~ sanction
of Govt.

Govt are of opinion
that there is no such
qualified officer at
the disposal of the
Board and therefore
Mr Lee in the only
officer who could be
"put upon" this work.

Mr Chisholm Lee, the Survey Engr.

64

Ward whom as well as the Geological Office could put upon their important work will be debated required & confer with the Board and after ascertaining its wishes and the details of the work it proposes, & report to Govt generally upon it. On receipt of such report, Govt would be in a position to form an opinion as to the further action required.

As regards the proposed improvement of Revenue Govt are pleased to sanction an annual grant-in-aid of Rs 5000 × to enable the Board to pay better attention to the roads in the city than they are able to do at present. Govt would be prepared to sanction the imposition of duty on [illegible] of a foreign [illegible]

× in addition to the contribution now made for the maintenance of Prov. Rds 7 roads within the municipal limits, the imposition of which under G.O. No 5020-7 dt 18 9 93 & F 77-93

~~- Coin by the Board~~
~~recommending the~~
~~levy of the same duty~~
~~on Kerosene oil, Govt~~
~~will therefore order~~
as proposed
As regards the levy
of duty on Kerosine
oil, Govt prefer to
defer orders pending
the ~~decision~~ submission
of a formal Resolution
of the Board recom-
mending such levy.

Govt are not
prepared at present to sanction
the levy of tolls; nor
do they see their way
to remit either the
responsibility of Municipalities
liability to pay the
usual ~~charges~~ contribution on
account of Elementary Education
Lower Secondary and Anglo-Vernacular
~~Institutions~~ schools in the City - the
question of relieving the Board
of this contribution (Rs 2640)
towards the cost of
the 2 High Schools in the
City; Wesleyan Mission
High School & Kannadika
Bhashoppini ~~School~~ will
be dealt with on receipt
of a reply to the Rso of Govt

No. 5

Mysore City Municipal
President's Office
dated 18th August-
1897.

To.

The Secretary to the
Government of Mysore
Revenue and General departments

Sir,

With reference to Government-
Proceedings No 1850-54 / L.T (243)-93 dated
(Consulted 204 9/97)
18th August-1896 para 2 observing
that the application for a loan of
a lac of rupees cannot be complied
with, without a proper project in
detail being prepared for the
drainage and opening out the
crowded parts of the city, I have
the honor to state that a project
for Rs. 1,14,255/- has now been
prepared by the Municipal Engineer.

Vice-President and the Commissioners of different mohallas.

(2) The works now proposed to be carried out are of urgent necessity. The nature of works and details thereof are explained in the report accompanying the estimates. The Board approved of the above works in Proceedings dated 26th June 1897, and copy of its resolution and the Vice-President's memo on the subject are herewith submitted.

(3) The project has thoroughly been examined by the Sanitary Engineer after inspection of the localities and his signature has been taken in token of his approval. As stated by the Vice-President in his above memo. I am -

also of the same opinion, that the acquisition of the property is necessary, and cannot be delayed any longer, as the value thereof is rising every day, owing to greater demand for landed property in the city. Every year a sum of Rs. 12000/- is being spent out of municipal funds towards compensation and improvement of drains in the city, and if the loan as prayed for, be granted, arrangement will be made to repay the debt by an yearly instalment of Rs. 10,000/-

(4) In these circumstances I request you will kindly obtain the sanction of the Government for the project and a loan of ~~[illegible]~~ rupees 117,255-

I have the honor to be

Sir,

your most obedient Servant

So do 1.5.14

Report to accompany the estimate for opening out congested parts of the city and providing them with drains

There are several parts of the city of Mysore, which have many houses crowded in a small space with but narrow crooked lanes affording communication between several houses, with but shallow pits serving as latrines and deposits for houses sweepings, with ill made drains choked up with dust rubbish and thrown by the several house owners and small ill constructed houses, the major portion of which is full of and flowing with cow dung and urine. These sadly require sanitary improvements such as good and efficacious drains for carrying away the sewage of several houses, and straight broad streets for admission of free and expulsion of foul air.

B division of Krishna Raja mohalla comes firstly in which seven [illegible]

wide as proposed to be opened and a sum of Rs 3703 2/- to be spent on paying compensation and an amount of Rs 1043/- for improving the drainage of the same.

Next comes the portion of the same mohalla lying between Bundy. Kere street on the north, Sopperikola street on the South, Mysore Nonnulody Road on the East, Pandit Agrahar Road and Peridargery main Road, on the west; and in this portion a road of 30 feet wide, extending between Chama-Raja Road and Sopinakola street; one between mosque street and new Chadakkhana street and 15 feet wide, a third widening the conservancy gully between Kempa ranganamba Agrahar and Devamba Agrahar, a fifth between mosque street and Mysore Nonnulody Road, a sixth to widen Abdulla-Khan's lane, a seventh and eighth 22 and 15 feet wide respectively running between Chama Raja Road

and Darogah mullick's lane have been proposed to be opened and an amount of Rs 12606/- to be spent on paying compensation and Rs 3686/- for improving the drainage of the same portion thus making a total of 16338/- for compensation, and Rs 4729/- for the improvement of drainage of Krishna Raja mohalla.

Next comes Lashker mohalla, and in it Halladakere in which five streets each not less than 15' feet in width are proposed to be opened and Rs 1390/- to be spent on compensation and Rs 525/- on the improvement of drainage. Then comes Kooroobakere and Beslagery of Lashker mohalla, in which four streets are proposed, the width in no case being less than 15' feet, and an amount of Rs 5039/- to be spent on compensation, and Rs 1302/- on the improvement of the drainage. Five more streets in the same mohalla and called respectively Gori gally, Perfumer mooralls Saheb's gully Lakshmakhan gully.

Kadalay gully and Raju allikhan street are proposed to opened and widened with Rs 3836/ for compensation and Rs 1997/- for the improvement of drainage, thus making a total of Rs 10265/- for compensation and Rs 3824 for the improvement of drainage.

The third in order is mundy mohalla in which a road 30 feet wide is proposed to be opened between Railway Station Road and mothee Ghaut street for the improvement of Kamalegerry and another road in the same portion 15 feet wide and Rs 6485/- is proposed to be spent on compensation and Rs 5053/- for the improvement of drainage.

Then comes Deva Raj mohalla, and in it are selected the Lower and upper missals and Kamalegery for improvement. In ~~the Lower~~ Upper missal the portion comprised between Trotwal Krishniah's street on the East, Narayana Sastry Road on the West,

Yelwal road Sreerampella street on the north, and mohadin Sahib, Karkhana street on the South, a street from Chennaveriah's gully to Yelwal Sreerampella street a Street from Chennaveriah's gully towards Gungamana temple street a third in extension of Chennaveriah's gully ~ Westward to meet Narayana Sastry Road and sum other streets, one of which runs between mohadin Sahib Karkhana street and Civil Hospital compound Road have been proposed to be opened at a cost of Rs 7691 for compensation, and Rs 38971- for the improvement of ~ drainage.

In Lower Nissal divided into two blocks, the first block comprising the portion lying between mysore mummbody Road on the East Kolhwal Krishnappa's street on the West, Yelwal or Sreerampell road on the north, and Dewan Bhemiah's Street on the South, and the second block whose limits

Western limits are the same as ~
above and whose northern and ~
Southern limits are Dewan Bhee-
-miah's street and Mohadeen Sahib
Karkhana street respectively. Eight-
roads are proposed to be opened
in block no I at a cost of Rs 4009/-
for compensation and Rs 15-12/- for
the improvement of drainage and
seven streets in block no II cost-
of compensation amounting to Rs
2808/- and of improvement of
drainage Rs 1438/- Lastly in Rama-
legery the portion comprised bet-
-ween market Road on the East-~
Narayana Sastry Road on the West,
Civil Hospital Compound road
on the north and Kolwal Ramaiah's
street on the South ten roads are
proposed to be opened at a cost
of Rs 7749/- for compensation and
Rs 1445-6/- for the improvement
of drainage. Thus making a total
of Rs 22,25-7/- for compensation
and Rs 11,303 for drainage.

Thus finishes the list of ~

improvements proposed and gives a total cost of Rs 55345/- for compensation and Rs 24,909 for the improvement of drainage. The above amount for compensation does not make a margin for contingencies which may arise in the shape of extra rates for the houses and lands to be purchased and also the payment of cost of materials which in many cases becomes unavoidable. Therefore one third of the above amount is allowed for cost of materials and 15 percent on the sum of the above two amounts for contingencies these amounts being respectively Rs 18448/- and 11070/-. Thus making a grand total of rupees 84863/- for compensation and Rs 24909/- for the improvement of drainage, both being included in the estimate amount of Rs 1,09772/- which is hereby submitted for approval and sanction of the Government having also obtained the approval

Sanitary Engineer with the Govern-
-ment of Mysore.

18

Memo.

As called for in para 2 of the Government order no 185-0-54 L.S. 204-93 dated 5th August 1896 a consolidated estimate for Rs ~~1,00,000/-~~ 1,17255-/- is made for opening out the congested parts in each mohalla providing with V shaped drains as the sewage water in these localities is now allowed to stagnate for want of proper drains. On account of this stagnation most of the lanes are in a very insanitary condition though all possible attempt is made to keep the places clean.

Now every year the Municipality is spending nearly Rs 12000/- for the above purpose and at this rate it will take more than 10 years to complete the acquisition of houses for opening out the congested parts and build drains. But year by year the value of the house property is rising and the same amount of work done in the 1st year for a certain sum cannot be expected

be carried out for a similar sum in the succeeding year.

Therefore it is necessary to acquire the properties once for all and then decide the nature of the drains to be built, if the Board is of opinion that the present V shaped drains are not suited for the sewage water.

It is impossible for the Municipality, owing to its crippled financial state to undertake at once the completion of the acquisition of houses and of the drainage.

Therefore the Government may be prayed to grant a loan to enable the municipality to complete the works proposed in the estimate. If the Government be pleased to grant a loan to the extent of a lac of rupees, provision may be made to repay it by an yearly instalment of Rs. 12000/- which is now being spent for acquisition of houses and the construction of drains.

As directed in para 2 of the

above order the Sanitary Engineer has inspected and approved of the proposed improvements.

Therefore I request that the Board will finally approve of the proposed improvements of the Town and apply to Government for a loan as asked for.

Some of the lanes in the congested parts of the city are so narrow and crooked, that it is impossible for even a single person to go erect owing to the low eaves and without the person coming from an opposite direction standing aside. Besides the eaves of the houses on both sides of the lane are so close to one another, as not to allow the ingress of the sunshine to the earth below.

Under these circumstances it is requested that the Board may consider and come to the resolution of taking early action for carrying out the proposed improvement of the Sanitation of the city. Most of the estimates as shewn in the statement have been [illegible]

Dng 15/1/98

Mr.

The Comptroller's letter shows that credit has not been afforded to the Mysore Municipality for grant-in-aid of Rs 5000 for the year 1896-97. There does not seem to be anything to prevent the necessary adjustment being made in '97-98, if there is provision available to the extent 5000 Rs + Rs 5000 (for the two years later). Please see if the Provincial Budgets for 97-98 contains such provision.

17/1/98

Dng

Mr. A separate memo submitted. There is no provision in the Local Budget from which the charge can be met.

Dng 21/1/98

Submitted for orders.

It seems necessary to make a special grant from Provl. funds for the two years '96-97 & '97-98. In that case the matter will have to go before Council.

MYSORE P. W. DEPARTMENT.

CENTRAL OFFICE,

Bangalore, 19th January 1900.

*From*

*The Chief Engineer of Mysore, Bangalore.*

*To* The Secretary to the Government of Mysore
General and Revenue Departments.
Bangalore

SIR,

With reference to Government proceedings
No. 2877-8 / L. F. 204-93 dated 24th August 1897, calling for the
Sanitary Engineer's report upon the project of Rs 117,2[illegible]
for opening out the congested parts of the Mysore City
and for improving their drainage, I have the honor to
forward the marginally noted papers on the subject.

II. Though my opinion is not asked, I would point
out that the question of where the dispossessed people
are to settle, has not been touched on, and it is a
most important point. If they squeeze in into the
already congested blocks round about the new Streets
and lanes, the last condition of things will soon
be as bad as the former.

III. The enclosures are returned.

I have the honor to be,
Sir,
Your most obedient servant,

C. Haworth Colonel

*Chief Engineer of Mysore.*

No. 703

Enclosure No.

Chief Engineers No 1231 of 2nd September 1894 forwarding Proceedings of Government No. 2844-8 L.S. 204 93 dated 24th August, calling for a Report generally upon the Project submitted by the Municipality, amounting to Rs 1,17,255, for cleansing the congested parts of the City and for linking the drainage.

---

I have the honor to report that the works proposed in the above project are urgently wanted. The estimate prepared by the undersigned under Chief Engineers No 2155-

dated 13th June 1889, and reported on in their office No. 514 dt 71

19th March 1890.

II. The several lanes and streets now proposed to be dealt with have all been inspected with the Sanitary Engineer, and the Scheme approved as a whole. The urgency as to the particular localities affected by these improvements having precedence over other Schemes of the town generally, if not more seriously affected, has been left to the judgment of the Municipal Authorities.

III. The works proposed are absolutely and urgently necessary especially with a prospect of an unhealthy season, if not of plague. Several of the lanes and Streets affected by these improvements have neither sun shine nor fresh air, and can be only described as plague spots.

IV. The plans are herewith Submitted duly countersigned.

My dear Manjeshwar

This is urgent. The case of the Estimates mentioned in Council - The Dewan said he would like to see the draft before you. Hence its submission to him about a week after withdrawal by the members in charge. It must take more than a minute for the Dewan to deal with the draft. Please obtain his withdrawal as quickly as possible

Yours truly

4th Apr

My dear Sir,

It is necessary that the Municipal estimate for 1897-98 should be submitted for sanction / crowded localities to improve the Sanitation of the town. In anticipation of the same being sanctioned / permission to or rebuild houses have been withheld, it is the owners are persons

either to take the required portion of their houses or to give license in case of not [illegible] them now - In case of giving permission, we have to pay more when acquiring these lands. I shall be much obliged if you kindly let me know whether there is any probability of the estimate being sanctioned soon - The duplicate copies of the estimate which is said to have been was submitted ago - Mr Standish Lee me that the estimate been sanctioned - Trust that you will kindly excuse me for the trouble

Yours very truly

C. Sreenivasa Iyengar Esqr

MYSORE P. W. DEPARTMENT.

No 2680,

From

The Chief Engineer of Mysore,
Bangalore.

To

The Secretary to Government
Revenue & General Departments

Dated Bangalore 13. May 1898.

Despatched

Enclosure No 1 copy of No 1830 of 11/3/98
No 1 copy of No 1970 of 18/3/98

SUBJECT.

Forwarding copies of the Chitpore Division Executive Engineer's address explaining why delay was caused in adjusting the Grant-in-aid referred to & explaining the adjustment of Rs 5000/- (additional Grant-in-aid).

SECTION

Ref

We relate additional Rs 5000 was included as a grant in aid payable from District funds in addition to usual contribution from the Provincial District Funds. No action appears to have been initiated by Funds. Now need therefore be as above movement in the case. This case should be brought to the Chief Engineer's notice

*Bangalore.*

*To*

*The Secretary to Government,*
*Revenue & General Departments.*

SIR,

With reference to Government P
No. 8947-8 / L. F. 204-93 dated 2nd February 1898, forw
copy of the Comptroller's No. 1279 dated 11th January
to the Examiner P. W. accounts, with a request
to report whether the additional grant-in-aid
of Rs 5,000/- sanctioned in Proceedings No 1860-5 / L. F. 204-,
dated 5th August 1896, for the maintenance of the
Provincial and District Fund Roads within the
Mysore City Municipality, has been dealt with,
and if so, how, - I have the honor to forward
copies of the marginally noted dockets from the
Executive Engineer, Mysore Division, expl

the

Docket No. 1970-8 dated May 1898.
Do - 1830-11 April 1898

the cause of delay in the adjustment of the grant-in-aids referred to.

II. It will be seen from the dockets referred to above, that the total length of the roads within the Municipality is 11 1/2 miles, of which 6 3/4 miles are Provincial and the balance 4 3/4 miles District Funds. By a proportionate distribution of the additional grant-in-aid of Rs 5,000/-, Rs 2,935 will have to be borne by Provincial Funds and Rs 2065 by the District Funds of the Mysore District, pending formal approval of this distribution by Government. The Executive Engineer, Mysore Division, has been directed to pay the former amount at once to the Municipal President. The President of the Mysore Local Fund Board will have to arrange for the adjustment of the portion debitable to District Funds -- vide Government

To

The Supdg Engineer, Western Circle

~~Sir,~~

In reply to his docket No 875 of 30th March 1898, has the honor to annex a memo showing the names of Provincial and District Fund Roads, lying in the Mysore City Municipality, their lengths and the mileage allotments, and to state that no enhanced provision was made in the Provincial budget for 1897-98, for the provincial fund roads, as the Government Proceedings No 1850-54 of 5th August 1896, does not show the distribution of Rs 5,000 Chargeable to Provincial and District Funds, nor has the President of the Mysore Municipality who urged the Government for a grant-in-aid, set the question of distribution settled by the Government in the Local Fund Branch If the President moves the Government on this reference, undersigned will submit supplemental Estimates for the portions to be debited to Provincial Funds.

Dy No 204-98

[illegible]

| | Miles | Rate Rs. | Amount R |

No. 197. 127

~~CENTRAL OFFICE~~,

~~Bangalore~~, 8th February 1898

From

The Executive Engineer, Mysore Division

To

The Supdg. Engineer, Western Circle.

~~SIR,~~ His Camp No. 226 dated 1st instant, (received this day) forwarding Copy of the Assistant-Chief Engineer's Endorsement No. 459 of 24th January 1898, wherein undersigned is called on ~~to~~ Explain as ~~to~~ why the additional Grant-in-aid of Rs 5,000 sanctioned for the Mysore City Municipality, was not paid during 1896-97-

---

With reference ~~to~~ the above, has the honor ~~to~~ state that up to 1895-96, a sum of Rs 950 was being credited ~~to~~ the Mysore City Municipality for Roads as noted below.-

| | |
|---|---|
| (1) Bangalore-Mysore Road 1/2 miles @ Rs 200 per mile | Rs 300 |
| (2) Mysore Suburban Roads, 3 miles @ Rs 200 | Rs 600 |
| (3) Mysore-Mahadevapur Road 1/4 mile @ 200 | 50 |
| | Rs 950, |

but during 1896-97, even the above credit that was afforded in the Accounts for August 1896 was withdrawn, in addition to withholding Rs 5,000 under reference, under instructions conveyed in Government proceedings No. 11852-4, dt 21-4-96, directing to exclude Municipal Contributions from the Public Works Grant, but to include the same under Court Charges

2 Undersigned to-day to remit money or afford credit, for such Municipal Contributions but

but the President has to draw the allotted funds for the roads and charge the Expenditure to the "Civil Department Contribution", without reference to this Department - Vide para 2 of this office No 3107/351 of 23rd September 1896 to the address of the Chief Engineer -

3. The above is the reason for the omission of the provision in the draft budget for 1897-98 —

Sd/ C. A Mahadeva Sastry
Executive Engineer
Mysore Dy.
